Discussion: Re-Entry Service Integration

Jonathan Russell from BACS discussed the update Re-Entry Service Integration model to provide HNCP47 residents with additional mental health services. BACS has implemented a service delivery redesign to connect HNCP47 clients with BACS' County-Wide Re-Entry team, which provides specialized mental health services specifically tailored for justice-involved individuals. To improve the service delivery model for Prop 47 participants, all eligible individuals (both living at the HNCP47 and those now in after-care) will be case managed through the Re-Entry Team.

Committee members also discussed additional community substance use services. Second Chance, Alcoholics Anonymous, and Narcotics Anonymous were discussed as possible programs to partner with. Harm reduction services were also discussed.

Action steps: Jessica Lobedan to research harm reduction services.

Discussion: Future Agenda Items

Committee members proposed the following future agenda items:

- 1 Year Annual Report
- Housing FAST update from BACS
- Presentation from CATT team
- Presentation from Probation
- Review of transitions/Re-Entry program exits
