

Paratransit Advisory Committee Mission Statement

The Paratransit Advisory Committee (PAC) is an advisory body to the Community Services Department and fulfills the consumer input function of expenditures related to Measure B/BB spending as required by Alameda County Transportation Commission (Alameda CTC). The PAC meets quarterly and its membership consist of consumers, nonprofit representatives and other senior and disability serving entities. The PAC anticipates and responds to the needs of Hayward’s aging and disabled residents by advising the Community Services Department about current and proposed transportation and social service projects, identifying service gaps, and recommending service improvements. The PAC promotes community activism, volunteerism and independence to combat isolation and alienation of older adults, the disabled and their families.
