SUBJECT: *Mission Boulevard Corridor Improvements Phase 3 Project – Start of Construction*

Dear Resident/Property Owner/Business Owner:

The Hayward City Council awarded the Mission Boulevard Corridor Improvements Phase 3 Project to DeSilva Gates Construction. Construction will start at the end of May 2023, and is anticipated to be completed in the summer of 2024, pending weather delays and supply chain issues.

This improvement project on Mission Boulevard is from A Street to the north City limit near Rose Street and generally consist of:

- Undergrounding of existing overhead utility wires
- Construction of new sidewalks and curb ramps
- Installation of LED streetlights
- Construction of bike lanes along the sidewalk
- Improvements to crosswalks with bulb outs and flashing beacons
- Modification of existing traffic signals and installation of a new traffic signal at the intersection of Sunset Boulevard
- Rehabilitation of the pavement
- Planting of new trees
- Installation of new gateway entry elements at Rose Street

We appreciate your patience and cooperation during the construction period. Every effort will be made to minimize inconveniences from the construction work. Upon completion, this project will enhance this section of Mission Boulevard. For more information about the project, please visit <https://www.hayward-ca.gov/your-government/departments/engineering-division/mission-boulevard-corridor-improvement-project-phase-2-3>. If you have any questions about this project, please contact the project manager Dave Hung, at (510) 583-4752 or dave.hung@hayward-ca.gov.

Sincerely,

Alex Ameri
Director of Public Works
