

Table of Contents

Call to Action	i
10 Steps to Reduce your Carbon Footprint and Save Money	ii
Acknowledgments.....	iv
Executive Summary	v
Introduction	v
Hayward’s Approach to Climate Protection.....	v
The Emissions Reduction Plan.....	vi
Summary of Baseline GHG Inventory.....	vii
Hayward’s Emissions Reduction Targets.....	xi
The Emissions Reduction Plan.....	xii
Achieving Target through Cumulative Emissions Savings	xvii
Ongoing Measurement and Verification.....	xxi
Appendices	xxiii
Table of Contents	xxv
List of Tables and Figures	xxviii
List of Acronyms and Abbreviations.....	xxix
Section 1 - Introduction	1
Climate Protection in Hayward	1
Purpose of Plan 2	
How the Draft Climate Action Plan was Developed.....	2
Action Plan Format and Calculation Methods.....	2
Science of Climate Change.....	3
Impacts of Climate Change.....	4
How Climate Change is Being Addressed	7
Hayward’s Existing Climate-Friendly Programs	11
Section 2 – Baseline Emissions Inventory	15
Why conduct a baseline emissions inventory?	15
Calculation Method	15
Emission Sources Included in Hayward’s Baseline Emissions Inventory.....	16
Summary of Inventory Results for 2005.....	17
Projected GHG Emissions Forecast	21
Hayward Emissions in a Global Context.....	24

Section 3 – Emissions Reduction Target	25
Purpose of Emissions Reduction Target	25
How a Target was Established.....	25
Hayward’s Emission Reduction Targets	27
Other Entities’ GHG Reduction Targets.....	29
Section 4 – Approach to Emissions Reductions	31
Achieving Target through Cumulative Emissions Savings	31
Approach to Reducing Transportation-related Emissions	37
Reducing Energy-related Emissions from Buildings	39
Reducing Solid Waste-Related Emissions.....	43
Supplement Emissions Reductions Activities with Carbon Offsets	45
Section 5 – Emissions Reduction Plan	47
Strategy 1: Transportation and Land Use – Reduce Vehicle Miles Traveled	47
Strategy 2: Transportation: Decrease Carbon-Intensity of Vehicles	61
Strategy 3: Energy: Improve Energy Performance of Existing Buildings	66
Strategy 4: Energy: Improve Energy Performance of New Buildings	76
Strategy 5: Energy: Use Renewable Energy.....	81
Strategy 6: Solid Waste: Increase Waste Reduction and Recycling.....	88
Strategy 7: Sequester Carbon.....	93
Strategy 8: Climate Change Adaptation.....	96
Strategy 9: Engage and Educate Community.....	97
Section 6 – Implementing the Plan	105
Managing City Staff Resources	105
Citizen and Business Participation.....	108
Prioritizing Actions to Implement	108
Create and Follow a Financial Plan.....	113
Financing the Climate Program.....	114
Section 7 – Ongoing Measurement and Verification	119
Why Measure and Verify	119
What to Measure.....	120
When to Measure.....	122
Voluntary Reporting.....	122
Appendices	123
Appendix A: Baseline Emissions Detailed Reports	125

Appendix B: Estimated Emissions Reductions 137
Appendix C: Methodology Report: Calculation of Estimated Emissions Reductions..... 151
Appendix D: Action Prioritization..... 173
Appendix E: Recommended Implementation Timing 181
Appendix F: Energy Efficiency and Conservation Block Grant Information..... 183
Appendix G: California Executive Orders and Legislation Pertaining to Climate Change..... 185
Appendix H: Recommended Changes Municipal Code..... 187
Appendix I: Recommended Changes to General Plan..... 191
Appendix J: Public Comments on the Draft Climate Action Plan..... 203

List of Tables and Figures

List of Tables

Table 1: Assumed annual growth rates for emissions projections	21
Table 2: Examples of other jurisdictions' goals.....	30
Table 3: Strategy 1 – Transportation and Land Use: Reduce Vehicle Miles Traveled.....	54
Table 4: Strategy 2 – Transportation: Decrease Carbon-Intensity of Vehicles.....	64
Table 5: Strategy 3 – Energy: Improve Energy Performance of Existing Buildings.....	72
Table 6: Strategy 4 – Energy: Improve Energy Performance of New Buildings.....	79
Table 7: Strategy 5 – Energy: Use Renewable Energy.....	86
Table 8: Strategy 6 – Solid Waste: Increase Waste Reduction and Recycling.....	90
Table 9: Strategy 7 – Sequester Carbon.....	95
Table 10: Strategy 9 – Engage and Educate Community.....	101
Table 11: Proposed actions for reducing community-wide emissions: listed in order of priority	109
Table 12: Proposed actions for reducing municipal emissions: listed in order of priority	111
Table 13: Indicators that can be used to evaluate programs	121

List of Figures

Figure 1: Hayward Land Areas Affected by Sea Level Rise	5
Figure 2: Decreasing Snowpack in California.....	6
Figure 3: California Bad Air days.....	7
Figure 4: City-wide GHG emissions in 2005.....	17
Figure 5: City-wide emissions including and not including emissions from State highways.....	18
Figure 6: Municipal GHG emissions in 2005.....	20
Figure 7: Scenario 1 projected City-wide GHG emissions 2005, 2020, and 2050.....	23
Figure 8: Scenario 2 projected City-wide GHG emissions 2005, 2020, and 2050.....	23
Figure 9: City-wide GHG emissions related to global emissions.....	24
Figure 10: Necessary Emissions Reductions.....	27
Figure 11: Hayward's community-wide emissions projections and targets	28
Figure 12: Hayward's municipal operations emissions projections and targets	29
Figure 13: Projected emissions with and without CAP programs, 2020 and 2050.....	32
Figure 14: CAP Strategy contribution to achieving 2020 and 2050 targets	33
Figure 15: Percent share of emissions reductions to meet 2020 and 2050 target.....	36
Figure 16: Projected emissions with and without CAP programs, 2005 to 2050	37
Figure 17: City of Hayward commuter mode of transit 2000.....	38
Figure 18: Per capita electricity consumption in 2005.....	40
Figure 19: Per capita electricity use in United States and California.....	41
Figure 20: Diversion Rates 1995 - 2006.....	44

List of Acronyms and Abbreviations

AB 32.....	Assembly Bill 32: California Global Warming Solutions Act of 2006
ABAG	Association of Bay Area Governments
ACCPP	Alameda County Climate Protection Project
APTA	American Public Transportation Association
BAAQMD	Bay Area Air Quality Management District
BART	Bay Area Rapid Transit
BAU.....	business-as-usual
CARB	California Air Resources Board
CAFE	Corporate Average Fuel Economy
CAP	climate action plan
CCAR.....	California Climate Action Registry
CCP.....	Cities for Climate Protection
CEC	California Energy Commission
CH ₄	methane
City.....	city of Hayward
CIWMB	California Integrated Waste Management Board
CO ₂	carbon dioxide
CO _{2e}	carbon dioxide equivalents
C&D.....	construction and demolition
DOE.....	Department of Energy
EPA	Environmental Protection Agency
GHG	greenhouse gas
GWh.....	Gigawatt hour
HOV.....	high occupancy vehicle
HUSD.....	Hayward Unified School District
ICLEI	Local Governments for Sustainability
IPCC.....	Intergovernmental Panel on Climate Change
MPG.....	miles per gallon
MTC	Metropolitan Transportation Commission
MW	megawatt
MWh.....	megawatt hours
N ₂ O.....	nitrous oxide
NASA	National Aeronautics and Space Administration
O ₃	ozone
O&M	operation and maintenance
PG&E.....	Pacific Gas & Electric Company
PV	photovoltaic
RPS	Renewable Portfolio Standards
StopWaste.Org.....	Alameda County Waste Management Authority & Recycling Board
UNFCCC	United Nations Framework Convention on Climate Change
VMT	vehicle miles traveled
VOC	volatile organic compound
WARM	Environmental Protection Agency Waste Reduction Model
WCI	Western Climate Initiative
