Rees not a friend to Hayward

IF YOU were to take Chance Riggins' "My Word" as the literal truth, then the message I get is that Norma Rees is not a friend of the city of Hayward. She is someone who will not support a city in need. She will abandon a city in need. She will even pretend the city doesn't even exist.

Since she is a resident of Hayward, then I guess you could say with more citizens like her who needs enemies?
