

Animal Adoption Process and Fees

- When you visit the shelter make sure to **fill out the adoption questionnaire** while you are looking around.
- Not all animals at the shelter may be available for adoption.

Dog Adoptions: Female - \$166.50 or Male - \$141.50

- Dog adoptions include a 5 in 1 canine vaccination (DHPPV), Bordatella vaccination, rabies vaccination, sterilization, Hayward license tag (for incorporated Hayward residents only) and a microchip.

Cat Adoptions: Female - \$107 or Male \$97

- Cat adoptions include a 5 in 1 feline vaccination (FVRCP), sterilization, a cardboard cat carrier and a microchip.
- Adopted animals cannot go home until they are sterilized. Animals are sterilized after adoption on the next available surgery date.
- We also have other types of animals for adoption such as rabbits, hamsters, birds, and reptiles. Adoptions begin at \$20.00 for small animals and range from \$70-\$85 for rabbits.
- Be sure to give consideration to our many special needs animals, which due to neglect, require some extra “TLC” and commitment. These pets are anxious to find a loving home.
