

Hayward Resident Views of Community Safety

Key Findings of a Survey of Residents Conducted October 3-21, 2020

Methodology and Context

Methodology

- ✓ 1,002 interviews with adult residents of the City of Hayward conducted October 3-21, 2020
- ✓ Sample drawn from a City-provided complete list of Hayward residential addresses
 - Addresses matched to various public and commercial databases to find landline phone numbers, wireless phone numbers and email addresses for each residence
 - Invitations to random sample of addresses via landline phone calls, wireless phone calls, emails, text messages, and postcards sent to addresses for whom not other contact information was available
 - Phone calls targeted to youngest available adult male or female resident of household
 - Oversample of Black Hayward residents yielding a total of 121 interviews
- ✓ Interviews in English and Spanish
- ✓ Results weighted to align with demographics of the adult population of Hayward as measured by the American Community Survey conducted by the US Census
- ✓ Margin of sampling error of ±3.1% at the 95% confidence level
- $\checkmark~$ Due to rounding, some percentages do not add up to 100%
- ✓ Selected comparisons to prior community surveys using alternative sampling methodologies
- ✓ FM3 and EVITARUS collaborated on all elements of survey design and analysis

South Hayward Definition

Respondents come from a wide variety of different ethnic backgrounds.

More than one in five respondents were born in another country and nearly half speak a language other than English at home.

Residents are most likely to name homelessness or crime as the most serious challenges facing Hayward.

In a few words of your own, what is the most serious problem facing Hayward? (Open-ended; 2% and Above Shown)

Verbatim Responses on Most Serious Problem

Gangs and lack of money to pick up trash in the streets. Dissatisfied with them not putting grass in front of schools. Weeds in front of schools are a problem.

Crime and homelessness are the biggest issues.

Landscaping and homelessness, also more healthy restaurants. Public transportation, better city planning, politicians, and defunding police.

The HPD. A couple of times my son was detained because he was waiting outside the store for his cousin and they said he was selling drugs. The racial profiling out here is a problem.

Crime in our neighborhoods. Theft from vehicles, including catalytic converters. Also, packages from homes. People littering, the sidewalks are full of furniture, sidewalks and couches.

> Affordable housing is the number one problem. Hayward could continue to repair the city streets, like Winton Avenue.

We are concentrating on so much new development with little focus on improving certain areas.

Perceptions of Safety

Residents feel safe in most circumstances in Hayward, but fewer feel "very safe."

How safe do you feel in Hayward _____? Do you feel safe, unsafe, or neither safe nor unsafe?

Black residents feel notably less safe in interactions with police than do white residents.

Verbatim Responses

Earlier you said that you feel unsafe in Hayward generally. In a few words of your own, what would make you feel safer in your community? (Open-ended; Asked of Those Who Generally Feel Unsafe Only, N=231)

To see more police presence driving around the street, not just locked in their shack.

Being harassed by the homeless. Have you seen all of them all at the Plunge? Not safe!

A better placement of speed bumps and streetlights. I never see cops around or in my neighborhood; there are not enough cops in Hayward.

Crime in South Hayward has gotten bad. The neighborhoods are not that safe anymore; most are rundown and not taken care of.

I think defunding the police and providing more funding for social services and schools. Spike in recent shootings, crime and theft in Hayward makes me feel somewhat unsafe overall.

I would want them to have more patrols running around taking care of the city and having more security around, and not have so many homelessness running around and stuff like that.

Three in five say police have a positive relationship with the community, but only one in four feel that way strongly.

Connections Between Housing Issues and Safety

Hayward, like other cities in the Bay Area, is suffering the consequences of housing affordability challenges. The survey data reveals some intersections between homelessness, community safety, and policing:

- Homelessness is ranked as the most important problem in the community (followed by crime). Housing affordability is ranked number four.
- Lifetime experience of homelessness at 9% is high, about twice the national average (of 4.7%).
- Personal and proximate experiences with homelessness affects attitudes towards the police, satisfaction with interactions, and attitudes towards defunding proposals.
- Residents are least satisfied with how the police respond to or treat homeless persons or persons with serious mental illness.

Potential Public Safety Reforms

Most residents support reallocating a portion of police funding and creating a participatory mechanism to direct how it is spent.

I am going to read you a list of potential reforms to the Hayward Police Department that have been proposed by a group of community members. Please tell me if you would support or oppose that potential policy.

Establishing a city-wide, participatory committee for all residents, regardless of citizenship status, that will dictate how to reallocate another 10% of the police budget to non-police, community-based services

Reducing and redistributing 10% of the police budget to non-police, communitybased services outside of the Police Department

Majorities oppose a freeze on construction or hiring by police.

There is overwhelming support for making 311 an urgency hotline.

Some people have proposed that the City explore whether 311 can be used as an urgency hotline to address public safety issues that are unrelated to law enforcement. This would include things like non-violent crisis intervention, mental health first response, traffic safety issues, and trauma-informed intervention for domestic violence victims. Would you support or oppose such a proposal?

Conclusions

As concluding thoughts, residents call for more police presence, community involvement, and better training.

In a few words of your own, what are the factors that the City of Hayward should consider as it looks to improve community safety and potentially reform policing? (Open-ended)

Verbatim Responses From Residents

Abolish police. Police in NYC did a work stop in 2014-15 and crime rates dropped. Be kind. Be aware. Be nice. But also take into account homelessness or other issues around crimes...that need to be resolved.

Consider creating a "homeless department" separate from police.

Do not defund the police department. If anything Hayward needs more police. I do not feel safe in Hayward which is the city I was born and raised in.

Doing some cultural training and nonbias work. Fire all racist cops and any with sympathies for alt-right Facebook groups. Do not employ police that do not live in the community.

Just having good honest police on our force.

Keep the police. We need more. Hiring more police officers will most certainly reduce crimes. Creating other resources is just a test and there is no for sure bet it will work.

> Hiring staff to assist with mental health issues. Mental health issues can be handled with social workers.

Conclusions

- 1. Residents continue to feel satisfied with the overall quality of life in Hayward.
- 2. However, fewer than half believe that they have "some" opportunity to voice their concerns on major community issues.
- 3. Majorities feel safe in most circumstances during their day-to-day lives in Hayward.
- 4. Three in five think that the police have a positive relationship with the community (59%), but only one in four feel that way "strongly" (26%).
- 5. Most residents have interacted with a Hayward police officer, and of that number more than two-thirds were satisfied with their experience.
- 6. Residents express satisfaction with most elements of police service, but a significant subgroup is concerned about addressing property crime.
- 7. However, Black residents have higher levels of dissatisfaction with public safety services and higher support for reform.
- 8. Most residents support reallocating a portion of police funding to other community services and giving the community a voice in how it is spent.
- 9. Residents are split on prohibiting the purchase of riot, military or surveillance equipment. Most oppose freezes on police hiring or facility construction.
- 10. Residents overwhelmingly back using 311 as an urgency hotline.
