FBO Projects Take Shape

APP Jet Center: The slab has been poured and primary steel is being erected for the office area in this photo. Completion is expected in January 2017.

Meridian Hayward: The current focus is framing the office area and construction of the entrance road. Completion is scheduled for September 2016.

Featured Organization: Vintage Aircraft Association Chapter 29

By Doug McNeeley, Airport Manager

The most active pilots' organization at Hayward Executive Airport is Vintage Aircraft Association's (VAA) Chapter 29. Originally identified with the Antique/Classic division of the Experimental Aircraft Association (EAA), VAA Chapter 29 welcomes a wide range of pilots and aviation enthusiasts, including flight instructors, commercial pilots, private pilots, and folks who simply have a strong interest in aviation. Some members are licensed aircraft mechanics and enjoy the challenge of maintaining aircraft.

Inside This Issue

|--------------------|---|
| Airport Operations | 2 |
| Manager's Corner | 3 |
| Upcoming Events | 4 |

Chapter aircraft run the gamut from warbirds to contemporary general aviation airplanes. One of the most unusual is a vintage twin-engine Piaggio amphibian. Certain chapter members are quite involved in the Experimental, Amateur-Built (EAB) side of aviation as well.

Airport Operations News

*By David Decoteau
Operations Supervisor*

Hayward Executive Airport hosted the 52nd Hayward Air Rally on June 24. I would like to thank all of the participants and volunteers who made the event such a success. A special thanks to the based tenants who temporarily relocated their aircraft from the Green Ramp for the occasion. We could not host such a superb event without your support. Congratulations to this year's winners, Tim Ronan and Michael Saboff, Race 24.

begins, but please ensure that you check the current airfield NOTAMs and Airport Advisories as much of this work is weather dependent.

The City of Hayward will be undertaking several large airfield projects this summer. At the time of publication the airport has received a grant offer from Caltrans and we're anticipating final FAA funding for the rehabilitation of Runway 28L/10R. This project requires a seven day runway closure, but we are working with the contractor to reduce paving time as much as possible. A night closure of seven nights will also be required thirty days after paving for grooving work. We will be holding one more informational meeting before the project

Rehabilitation of the perimeter fence will take place on the east and south side of the airfield. This will enhance airport security and assist with wildlife control. There will also be a hangar re-roofing project and improvements to the perimeter road late this summer.

Please feel free to contact me at david.decoteau@hayward-ca.gov with any questions or comments regarding the upcoming airfield projects. ☞

(VAA29 continued from page 1)

VAA Chapter 29 was founded by local pilot and businessman Bud Field in 1995 and celebrated its twentieth anniversary last year. Over the last twenty-one years VAA Chapter 29 has provided free airplane rides to over 3,000 children as part of the EAA Young Eagles program, including hundreds of kids flown at the annual airport open house. Other Chapter activities include a monthly BBQ and membership meeting with guest speakers, lunch fly-outs, an annual membership BBQ, and a holiday party.

Chapter volunteers have also arranged the visits to Hayward by the EAA's B-17 "Aluminum Overcast" and by a rare Ford Tri-Motor airliner. The Tri-Motor was a very popular participant at the 2015 airport open house and it's scheduled to return to Hayward this year on Sunday, October 16. Rides for adults are \$70 in advance and \$75 walk-up.

Please visit www.VAA29.org for additional information on how to become a part of this friendly, dynamic organization. ☞

Airport Manager's Corner

By Doug McNeeley

Our Noise Analyst Sean Moran recently accepted a new operations position at San Jose International Airport. Among other accomplishments, Sean was instrumental in acquiring a new digital noise monitoring system at Hayward called Noise Desk that provides improved functionality and is more economical to operate than the system it replaced. In addition to his responsibilities with noise abatement and community outreach, Sean also covered a host of operational duties and was the staff representative on weekends. Our congratulations and best wishes go out to Sean. As this is being written, we have begun the recruitment process for the position.

Congratulations are in order for Operations Supervisor David Decoteau for earning professional accreditation from the American Association of Airport Executives (AAAE). David is now an Accredited Airport Executive and he's entitled to include the initials "A.A.E." after his name, a big deal in the world of airport management. Less than ten percent of AAAE's 5,000 members throughout the country have earned this distinction. To qualify, David had to pass a comprehensive 180-item written examination, write a professional research paper, and successfully complete a four-hour panel interview on all aspects of airport management. This required years of work experience and one year of concentrated study in preparation, and it underscores David's commitment to his profession and to Hayward Executive Airport.

In other news, there was a special advertising insert in the *San Francisco Chronicle* published on June 26, 2016 about the City of Hayward, and the airport was featured. If you didn't see it, we have spare copies available at the administration office that we're happy to share with you.

The next airport open house is scheduled for Sunday, October 16. We're giving it a try in the fall this year to coincide with the EAA Ford Tri-Motor's tour schedule, among other reasons. Please give us a call if you'd like to put your aircraft on static display, and we'll have more information on other attractions as we get closer. Over 5,000 people attended the 2015 open house and we'd like to increase that number even further this year.

On the evening of June 21 the FAA Oakland Flight Standards District Office held a briefing on safety procedures and operating guidelines at HWD. I welcomed the group and I was happy to see a nice turnout of based pilots including a good number of CFIs.

The Leadership Hayward Class of 2016 visited on June 23 to learn about the services and economic benefits provided by the airport. Leadership Hayward is part of the Hayward Chamber of Commerce, and since 1990 it has helped develop 300 leaders knowledgeable about the greater Hayward area. This is the fourth year we've hosted the group at the airport.

The Hayward Air Rally was held on June 24, and there was a good turnout as evidenced by the photo below. ☞
