	4 Fire District	0	\$0.00	\$1,363.00	Tracey Nguyen			
	<i>Description: This project consists of the removal and replacement of an existing underground storage tank (UST) spill containment bucket. The current spill bucket will be excavated and properly disposed of in accordance with applicable regulations. A new, code-compliant spill bucket will be installed at the same location and connected to the existing fill riser. The installation will include proper bedding, backfill, and surface restoration. The new spill bucket will meet current regulatory requirements for liquid-tight containment and compatibility with the stored fuel product. All work will be performed by Granite Excavation & Demolition, a properly licensed contractor in accordance with applicable fire code, environmental regulations, and manufacturer specifications. No changes to tank capacity, product type, or site layout are proposed as part of this project.</i>
