Re: Campus Drive Sidewalk Improvement Project – Community Announcement to Campus Drive Community

We hope this letter finds you in good health. We are excited to share an update on the Campus Drive Sidewalk Project, which aims to enhance pedestrian safety and better serve the community along Campus Drive. The project will provide a sidewalk route from 2nd Street to University Court on Campus Drive.

This project builds on improvements initiated in February 2023, which included striping upgrades with bike lanes and bollards along Campus Drive from 2nd Street to Highland Boulevard. During the April 19, 2023 meeting, one of the features presented included new sidewalk which was well received by the community.

The new sidewalk project will cover approximately 2,700 linear feet split between either side of the roadway. The project includes the following improvements along Campus Drive:

- Installing a 4.5-foot sidewalk on the East side of Campus Drive from near 2nd Street to Oakes Drive
- Installing Curb ramps at the intersection of Campus Drive with Oakes Drive
- Installing a 4.5-foot sidewalk on the West side of Campus Drive from Oakes Drive to University Court
- New Stormwater Treatment Area on east side of Campus Dr at University Court.

These improvements build on the goals of the Campus Drive Traffic Calming Project, which aimed to reduce vehicle speeds and enhance safety for all users, including pedestrians, bicyclists, motorists, and transit riders. By providing a sidewalk connection, protected bike lanes, and consistent roadway features, these measures will create a safer, more accessible, and more efficient environment for everyone. For more information on the Campus Drive Sidewalk Project, we encourage you to visit our project webpage at <http://www.hayward-ca.gov/campus-drive>.

Thank you for your understanding and cooperation throughout this process. Should you have any questions or require further clarification, please do not hesitate to contact the Public Works Department – Engineering Division at (510) 583-4730 or Engineering@hayward-ca.gov.

We appreciate your patience and support as we work towards achieving safer and more sustainable transportation solutions for Hayward.

Sincerely,

Alex Ameri, Director of Public Works
