

Airport Advisory

Temporary Change in Hayward FAA Air Traffic Control Tower Hours of Operation

WHAT: Daily Hayward Executive Airport (HWD) control tower hours of operation 0900 to 2100 Local Time

WHEN: Effective May 3, 2020

WHY: The FAA is temporarily adjusting the operating hours of many control towers nationwide to ensure safe operations while minimizing health risks to the air traffic control workforce.

This action will help reduce the possibility of temporary control tower closure due to exposure by controllers to COVID-19. The adjustments in operating hours are not intended to be permanent and will be continually assessed and adjusted to meet changing air traffic needs.
