

# Recognized Field Evaluation Bodies

Development Services Department  
777 B Street Hayward, CA 94541  
510.583.4140

The California Electrical Code has specific requirements that equipment is to be listed by a Nationally Recognized Testing Laboratory (NRTL) and be installed per its intended use.

In lieu of the NRTL listing, the City of Hayward has a list of approved field evaluation bodies or FEB's who specialize in the approval of unlisted or custom built manufacturing equipment, tools or machinery. These agencies ensure the safe installation as well as the safe operation of machinery by ensuring compliance with applicable standards and regulations that would have been required during the listing process by the NRTL. Once all of the deficiencies are corrected the FEB will field label the equipment and provide the City with a final report.
