Name: Nestor Castillo  
Occupation: University Lecturer  
Age: 32

I am running for Hayward City Council to represent and fight for working-class families and residents of Hayward. As a professor and a public health professional, I am a deep believer that we can build a Hayward that works for all people, not just special interests. I will prioritize the needs of workers by passing a living wage. I will increase access to healthcare, paid sick leave, and safe and affordable housing for working families. I will approach all policies through a public health lens to secure the well-being and future of our city.

As a member of the Hayward community, I have invested in our great city. I am an Ethnic Studies professor at Cal State East Bay and a proud union member of the California Faculty Association. I serve as vice-chair of the Alameda County Public Health Commission, guiding our county on health initiatives for safe and vibrant neighborhoods. As a life-long East Bay resident and proud Hayward resident, I will fight to bring bold, innovative, and proactive leadership to City Hall. I am committed to working in partnership with the community and to serving Hayward with integrity and humility. Please visit [Nestor4Hayward.com](http://Nestor4Hayward.com) for more information.
