Name: Mark Salinas

Occupation: Council Member and College Instructor

Age: 49

Born at St. Rose Hospital, raised in the Schafer Park Neighborhood, I have lived in Hayward my whole life. COVID-19 affects all of us and my priority today is your family. Hayward has spent over four million dollars on the testing center; food distributions; financial relief; and tenant protections for families and business owners. Council members must be principled, know their responsibilities, and make decisions for people first. I am working to stop the spread of COVID-19 and connect families to relief. While not letting go of what families need today, I am focused on Hayward's future. I will fully fund and staff the fire department so it can strengthen and expand expertise in protecting public health; establish a community-wide process, inclusive discussion, and community consensus to build a budget and deliver equitable protection services; protect renters and prioritize programs that produce housing for all incomes levels; and connect businesses to relief and when appropriate accelerate recovery, establish opportunity zones, and help businesses grow. My experience will get us past today and my leadership will achieve recovery so your family is safe, healthy, and prepared for the future. I would be honored to have your vote. Thank you.
