| <i>Description: The proposed project is the closure of the P &amp; S Sales facility located at 20943 Cabot Boulevard in Hayward CA. This business manufactures and distributes automotive detailing chemical products. The facility has aboveground hazardous materials mixing tanks, underground storage tanks, H-2 Occupancies, and storage racking. Related to hazardous materials, this project will involve the removal of three underground storage tanks and aboveground hazardous materials mixing storage tanks (which includes those for flammable/comustible liquids) inside of a building. Also, as part of the project walls will need to be removed, areas of the engineered cement floor we'll need to be cut open, storage racking will be removed, portions of electrical will also be removed, etc. Once the demolition activities are completed the facility including walls and floors will need to be restored.</i> |  |   |            |                                      |                  |                |                  |

|                                       | <p>Description: The proposed project is the closure of the P &amp; S Sales facility located at 20943 Cabot Boulevard in Hayward CA. This business manufactures and distributes automotive detailing chemical products. The facility has aboveground hazardous materials mixing tanks, underground storage tanks, H-2 Occupancies, and storage racking. Related to hazardous materials, this project will involve the removal of three underground storage tanks and aboveground hazardous materials mixing storage tanks (which includes those for flammable/combustible liquids) inside of a building. Also, as part of the project walls will need to be removed, areas of the engineered cement floor we'll need to be cut open, storage racking will be removed, portions of electrical will also be removed, etc. Once the demolition activities are completed the facility including walls and floors will need to be restored.</p> |                 |                           |  |                  |                |                  |  |  |  |  |  |  |  |

|  | <i>Description: The proposed project is the closure of the P &amp; S Sales facility located at 20943 Cabot Boulevard in Hayward CA. This business manufactures and distributes automotive detailing chemical products. The facility has aboveground hazardous materials mixing tanks, underground storage tanks, H-2 Occupancies, and storage racking. Related to hazardous materials, this project will involve the removal of three underground storage tanks and aboveground hazardous materials mixing storage tanks (which includes those for flammable/combustible liquids) inside of a building. Also, as part of the project walls will need to be removed, areas of the engineered cement floor we'll need to be cut open, storage racking will be removed, portions of electrical will also be removed, etc. Once the demolition activities are completed the facility including walls and floors will need to be restored.</i> |                                   |                            |  |                             | <b>PERMITS ISSUED FOR SYSTEM REMOVAL:</b>                    |                 |
