BARTELL ANSWERS WILLETT'S

"No plans have ever been proposed to bring water to Russell City."

"It is very evident that a misunderstanding exists relative to the water situation of Russell City."

"There is no legal authority to bring water to any community at county expense."

Quoted above are three statements addressed to the press by Harry Bartell, chairman of the county board of supervisors.

Bartell explained that Willett's original letter of June 24 was not answered because it is noted that the copy of the letter forwarded is not signed.

"I am sure Mr. Marcus Carlson will give you the reasons and if you are not satisfied with the reasons given and will refer to the board of supervisors specific cases, the matter will be further investigated by the board of supervisors."

"It is possible to say when the new water main to Russell City will be completed."

"No plans have ever..."

"In consideration of the water works..."

"Bartell concluded his letter by stating, 'I trust this letter answers your questions satisfactorily and if you will let me hear from you further.'"

"Sweikert injured in race crash"

Bob Sweikert, one of Hayward's most renowned racing drivers, was released from Peninsula hospital in Vallejo Thursday morning after overnight observation as the result of a race track crash Wednesday night.

"Hospital officials said he had 'an injured hand and shoulder,' but would not comment on how serious the injuries are."

"The report of Sweikert's injuries stems from the fact that he had a fractured skull and broken bones."

"No Gas Sweikert lives with his wife, Marjorie, 20814 Agnes Ave. She is thought to be bringing the popular racer home Thursday afternoon."

"Information on the midday auto crash at the Vallejo track was made by Jack Holland, auto agency representative who reportedly 'flipped' and crumpled through the fence at the Vallejo dirt track."

"Apparently the accident took place during a heat race for the both the main and semi-main events. Another driver was believed to have clipped the midge Sweikert was driving in the rear, sending it rolling through the gate."

"The Hayward racer was driving a midge owned by Iver Hecker, former owner of Iver's garage in Hayward, now devoting his time to racing outright."

CROSSBY'S HOPALONG RIDE RANGE TOGETHER

HOLLYWOOD (UP) — Bing Crosby, his four sons and Hopalong Cassidy will ride the range together in a motion picture.

Paramount Studio announced that Crosby and Hopalong (Bill Boyd) would appear in a movie from an original story by Academy Award-winning Producer-Director Leo McCarey.

THE WEATHER

Fair today and Friday but early morning fog and also at night next week.

Brakeman On Train Shot In Head By Boys

Three Tenyson boys were picked up by the sheriff's office in Hayward today for investigation into the shooting of a Southern Pacific brakeman.

The brakeman, Frank Buck, 55, 2470 Havenscourt boulevard, Oakland, was given emergency treatment at Hayward hospital. Doctors there found a .22 caliber bullet lodged in the man's skull.

Buck said he was sitting in the caboose of a train and was shot just as it passed over a two-track underpass. The bullet entered his head from above, penetrating the top of his cap.

The train, traveling from Niles to Hayward, stopped when it reached the Southern Pacific station and Buck was rushed to the hospital by the station agent.

Five cars from the sheriff's office were called to the vicinity of the shooting and ten deputies and detectives set up a dragnet for the suspects.

A phone call from Mrs. Ruth A. Colbertson, 29428 Taylor street, started the investigation when she reported that her 13-year-old son had been shot by some boys with a rifle.

Two witnesses, Arthur W. Salcedo, 10 and Dennis Crawford, 25, 2244 Taylor street, said they heard one shot just as the freight train passed nearby.

NEW YORK (UP)—Prices moved irregularly on the stock exchange today in the dulled market session in three months.

Turn-over was highly restricted as attendance in Wall street was light with many traders getting a head start for the upcoming holiday weekend.

Transactions in the first four days dealings alone totaled only \$1,600, which is the smallest for the period since last May 29.

QUESTIONING... Three boys, aged 10, 15 and 17, were questioned on the scene where they were picked up after a 40-minute combined radio and personal dragnet by officers of the county sheriff's department.

Frightened and uncertain of what would happen to them, the three youths sat quietly as a deputy took their names before separating them and taking them to Hayward station for further questioning.

PICKED UP... Quick work by detectives and deputies of Hayward sub-station of the county sheriff's office brought apprehension within 40 minutes today of three youths who shot a railroad brakeman with their .22 caliber rifle.

Detective George Winans shows leads one of the youths into the sub-station of the county sheriff's office brought apprehension within 40 minutes today of three youths who shot a railroad brakeman with their .22 caliber rifle.

off to identification cannot be made from this photograph in line with The Daily Review's policy not to reveal the identity of juveniles involved in criminal acts.

Key Increases Would Yield 19.87% Rate of Return, Engineer Says

OAKLAND (UP) — Proposed new rate increases asked by the Key System would yield three times the "proper" return on the company's investment, in the opinion of a consulting engineer.

Clarence A. Winder, consultant for the Federal Power Commission, took the stand yesterday in behalf of 11 East Bay cities protesting the increases at a Public Utilities Commission hearing.

"No estimated the rate of return under the increases at 18.87 per cent. The company claims it would be 7.58 per cent."

Winder said present fares would yield 7.47 per cent if "over-stated capital investment and operating expenses" were cut down to what they actually are.

Furthermore, he said present fares should not only pay preferred dividends but pay 20 per cent on the company's common stock.

He presented figures showing the volume of traffic handled by the Key System should increase because of rising employment, possible shortages of steel, rubber and gasoline and an increase in the number of Navy personnel at Treasure Island.

Garafalo Request for Use Permit Referred to County Planners

A request from Berne E. Garafalo for a use permit to allow excavating and running by truck of dirt, rock and clay from the north of Bridge street at the Lassen tract was referred to the county planning commission by supervisors Tuesday morning.

The application will be taken up by the planning commission at a meeting Tuesday afternoon.

HOLLYWOOD (UP)—Sign of the times: The Korean war pin-up posters in an underground machine were changed today to display John Caulfield "Our Nitty for Victory."

Larsen Leads Field Into Quarterfinals

FOREST HILLS, N. Y. (UP)—Sixth-seeded Art Larsen of San Leandro led the field into the quarterfinals of the U. S. Women's championship today by upsetting Janey Drobny of Egypt, 6-2, 2-6, 4-2.

Larsen's comparatively easy victory over the chunky, well-exiled Czech rendered the second-ranked foreign threat to the title and proved the rocky little California souper will be tough to beat from here on.

Larsen was the first of eight scheduled to reach the quarterfinals today.

Dr. Julius Levine of Hayward and Dr. Milton P. Ream of San Leandro disclosed today that they have taken out a petition to end the hospital race.

Time Running Out 27-Year-Old Mother With 5 Children, 1 Crippled, Faces Eviction From Home

County authorities have staved off for so long as the law will permit, the eviction of a 27-year-old mother and her five children, but time runs out tomorrow.

Pight of the young woman was brought to public attention about two weeks ago when an eviction notice was sent in the office.

Authorities agreed to grant additional time to the mother so her search for suitable housing could continue. The search has been futile.

An offer was received from one reader, but the accommodations could not permit the housing of the physician attending the convalescing son.

"We are to give our services to others," L. Wilson told Linsen, reminding them that a fund drive for the organization will end Sept. 18 through Sept. 30.

Telling of her experience in working at the Hayward office, L. Wilson mentioned taking food to a family which had no means of obtaining aid for three weeks prior to county welfare aid.

"The expression of joy in the eyes of those children (there were five); it something I will never forget," she said.

Another case handled by the local office took place when mother and three-week-old baby was able to furnish clothing for the baby and the family went on his way the next day refreshed and sane.

Hotels in the Hayward area were unable to give overnight quarters. L. Wilson took the mother and baby into her home, was able to furnish clothing for the baby and the family went on his way the next day refreshed and sane.

She made a plea for housing for mother and child, who are being evicted. Eviction is expected to take about three weeks. "I think it is too bad in our community when someone can be put in the street and be self-sufficient."

Candidates in the Eden Township hospital board election today were three contenders receiving the greatest number of votes over the "voted" directors.

An ambiguity in the original election, in which which was set up with each candidate running a separate position, was corrected in a letter answering the queries of a candidate.

A candidate for publication was named today by David K. Gilmore, who was formerly secretary of the board, to run for election to position 5. Moving his attorney office from San Leandro to Oakland this week, Gilmore stated that "when the election is reached, this Saturday, it will be evident whether or not his name is still in the running."

Other candidates will include members of the board, including Castro Valley realtor and school board member, and a former sign of Hayward, both of whom have already filed their petitions.

According to Phillips, two years ago the Alameda county district court interpreted the law as meaning the hospital candidates should run for the separate offices and because of this other jurisdictions throughout the state followed the same way.

However, this procedure was discussed recently with the Alameda county officials, who concluded that an opinion should be obtained from the general attorney's office in Sacramento.

Beds Yield, Push West of Pohang City

Assault on Pusan Begins Near Masan

TOKYO, Friday (UP) — The North Korean Communists have begun their long-awaited all-out assault against Masan and the vital supply port of Pusan.

An estimated 10,000 North Korean divisions of possibly 20,000 men preceded by an intense artillery and mortar barrage, shelled the American 4th and 35th Regiment fronts at midnight Thursday.

At 2 a. m., United Press Correspondent Robert Miller reported from the front that the enemy had made "one step" and Pusan was reported shattering.

Both ends of the 126-mile long Korean defense line now were ablaze but at one—Pohang—the enemy had been fought to a virtual standstill or was running, and at the second Masan still was too early to be decided.

For five days an unsteady peace has reigned over the southern front, although military observers know the enemy was building up its strength and had expected him to attack soon.

The attack centered on Hamaan, 27 miles west of Pusan and about 100 miles northwest of Masan. At least one enemy tank was destroyed in the early hours of the fighting.

It would be another all-out test of the American defense as they again were outnumbered about three-to-one.

Warren Lauds New Social Security Act

SACRAMENTO (UP) — Gov. Earl Warren today lauded the new social security act raising the disabled persons and old-age pension groups to the top.

He said he would ask the legislature to amend the act for Sept. 20 to make the act fully effective in California.

"I believe it is one of the most important social security measures passed since the first one," he said. "I am entirely in sympathy with it. It broadens that social security to have adequately in California."

The governor said he was informed the act, effective Oct. 1, would increase social security benefits by 75 per cent, would start a new aid program for the disabled, allow increases in aid for needy children and the blind, and apply social security to new classes of persons.

He said the act would save the state money on some programs, and that the net effect will be to increase the state's revenue.

The state will save in some 500,000 cases where persons get old-age assistance in supplement to security benefits. But he said the state and counties and cities will have to contribute \$23 a month toward \$40 payments to some 250,000 disabled persons.

Three men filed before the Aug. 26 deadline to have their names placed on the ballot for the Sept. 18 election for two directorships of the Castro Valley Sanitary district.

Robert Peterson and Son Sheet Metal company, who now serves as chairman of the board, has filed for reelection. Ronald D. Coats also seeks election to the position. Peterson was appointed to fill the unexpired term of H. C. McCoy, resigned. Coats is partner in the Clements and Company firm of Hayward. He makes his home in Castro Valley.

This applicant to the was B. J. Lamb of the San Gabriel avenue. He is a bio-chemist.

Possibility that several writes would voice their opposition by filing in their own selection of precincts. Those participating will be advanced today through the election process.

Election notices were directed to be posted at the Castro Valley school, the fire house and post office. The election will be held at the office of the sanitary district, 2400 Marshall street.

Named to serve on the election board are Malcolm Dunkley, district supervisor; Nettie J. Hornbeck and Alice Lopez, judges, with Alice McKinney as alternate.
