## Oliver Property

### Planners Schedule Hearing On Zoning

Hayward Planning Commission will tackle the tough problem of zoning for a 51-acre annexation in South Hayward when it meets to complete planning studies and tomorrow at 8 p.m. in the city hall council chambers.

The hearing will concern the 51-acre parcel owned by the developed parcel north of Tenney Road between Intersecting Boulevard and California Avenue.

Key feature of the zoning plan for the property has to do with some six acres at Tenney and Intersecting, where developer C. C. Soles proposes to build a neighborhood shopping center.

Soles' plans run into bitter resistance from stakeholders for the property on the other side of the street. The council voted to annex the property.

The planning staff is expected to recommend the zoning for the property, since it has shown a neighborhood center at the Intersecting-Tenney site in a proposed new city master plan.

Developers opposing the plan complain that Hayward already has too much commercial zoning and too many stores for the number of people to be served.

## Russell City

### Soil Tests Authorized

Soil tests basic to a full-scale development project in Russell City were authorized yesterday by the Alameda County Board of Supervisors.

Under the plan, the board authorized the city engineer to hire a consultant to conduct soil tests on the property.

The council voted to authorize the city engineer to hire a consultant to conduct soil tests on the property.
