

### What is your goal for this project?

Thank you for the question. First I would like to thank the city of Hayward for its apology and its acknowledgement of wrongdoing. Hayward is a trendsetter, thus providing our community the opportunity to develop a national model for restorative Justice.

My goal is to listen to all parties involved in this matter. To review and evaluate past data and data gathered by the researchers in order to determine an equitable remedy for the losses sustained by 205 impacted families.
