Attention: Notice of Water Main Replacement Project – Various Locations

Dear Property Owner/Resident/Business Owner/Tenant:

As part of the continuing improvement program to upgrade and maintain the existing water distribution system and facility, the City of Hayward has contracted with Ranger Pipelines Inc. to install new water mains at various streets throughout the City. This project will be installing approximately 26,600 feet of 12-inch, 8-inch, and 6-inch water pipes. Work will also include fire hydrant installation, pavement repairs, and making water service transfers to new mains. The completed replacement will improve the capacity and reliability of the water system.

The water main replacement is tentatively scheduled to start on Monday, March 28, 2022 and be completed in March 2023. The contractor's normal work hours will be weekdays from 7:30 AM to 4:30 PM. Approximately one week prior to the start of activity, the contractor will issue another notification to affected residents and businesses adjacent to the project location. When necessary for construction operations, temporary "No Parking" signs will be posted at least 72-hours prior to enforcement and remain posted until the work is completed. A portion of the roadway will be restricted during construction; flaggers will be provided to direct traffic if necessary. Access to all properties will be maintained throughout construction. Service reconnections, which will cause temporary disruption of water service line, will normally occur between 9:00 AM and 3:00 PM. Typically the water service disruption will not extend beyond 2 hours. Notices will be provided at least 72 hours and again 24 hours prior to disruption of any services.

Every effort will be made to complete this project with as little disruption as possible and according to the established schedule. We greatly appreciate your patience and cooperation during the construction operations. If you have any questions regarding this matter, please contact Tay Nguyen, Project Manager at 510-583-4715 or by email at tay.nguyen@hayward-ca.gov, or Jason Whipple, the City's Supervising Construction Inspector at 510-583-4755 or by email at jason.whipple@hayward-ca.gov.

Sincerely,

A handwritten signature in blue ink that reads "Tay Nguyen".

Tay Nguyen
Project Manager
